Subject: Invitation as a Resource Person for conducting a expert session on "Database Management Systems".

Dear Sir,

With reference to the subject cited above, we are planning to organize a guidance session on "Database Management Systems" for the students on 03/09/2022, Time:1:30 to 3pm. This session is being organized by Computer Science & Engineering department, M.S.Bidve Engineering College, Latur

In this regard, we request you to accept our invitation as a Resource Person for this session on 03/09/2022.

With warm regards,

Prof.S.R.Tandle  
Head, CSE Dept.

Received  
Patil O.M.

**Title of Event:** Expert Lecture: Special Programming Lecture on (DBMS)

**Date:** 03/09/2022

**Time:** 1.30 to 3 PM

**Venue:** B.Tech (CSE) Classroom

**Detailed Information:**

To enrich the academic experience and broaden student knowledge, the college (CSE Department) arranged an expert lecture by a prominent figure in the field of [DBMS]. The lecture delved into [Prof.O.M.Patil], providing students with valuable insights and fostering critical thinking. This initiative aimed to bridge the gap between theoretical knowledge and practical applications, preparing students for future endeavors in [DBMS].

**On**  
**“Technical Session on Machine Learning with a Practical Approach”**

**Date:** October 5 and 6, 2023.

**Location:** Seminar hall, Department of Information Technology, M.S. Bidve Engineering College, Latur

---

## **1. Introduction**

The two-day technical session on "Machine Learning with a Practical Approach," led by Vyankat Jadhav, a software developer based in Bangalore, took place on October 5 and 6, 2023. The session aimed to provide participants with a comprehensive understanding of machine learning (ML) concepts and practical skills to apply ML techniques effectively. The event attracted a diverse audience, including students, professionals, and enthusiasts interested in the burgeoning field of machine learning.

## **2. Objectives**

The primary objectives of the session were:

- To introduce fundamental concepts of machine learning.
- To provide hands-on experience with popular machine learning algorithms and tools.
- To explore advanced machine learning techniques and their real-world applications.
- To enable participants to develop and evaluate their own machine learning models.

### 4. Agenda and Topics Covered

**Day 1: October 5, 2023**

#### **Opening Remarks**

Vyankat Jadhav opened the session by outlining its goals and structure, emphasizing the blend of theoretical knowledge and practical application.

#### **Morning Session: Fundamentals of Machine Learning**

Introduction to Machine Learning: Provided an overview of machine learning, its definitions, and its impact across various sectors. Types of Machine Learning:

Discussed the differences between supervised, unsupervised, and reinforcement learning. Key Algorithms: Introduced basic algorithms such as linear regression, logistic regression, decision trees, and k-nearest neighbors (KNN).

### **Hands-On Activity: Building a Simple Model**

Participants built a linear regression model using Python and the scikit-learn library. This exercise helped them understand data preparation, model training, and evaluation processes.

### **Afternoon Session: Advanced Machine Learning Concepts**

Feature Engineering: Covered techniques for selecting and transforming features to enhance model performance. Model Evaluation and Validation: Discussed methods for assessing model accuracy, including cross-validation and the confusion matrix. Overfitting and Underfitting: Explained strategies to prevent overfitting and underfitting, such as regularization and data augmentation.

## **Day 2: October 6, 2023**

### **Morning Session: Practical Applications of Machine Learning**

Natural Language Processing (NLP): Introduced NLP and its applications, such as sentiment analysis and text classification. Computer Vision: Discussed the basics of computer vision and its uses, including image classification and object detection. Time Series Analysis: Explored techniques for analyzing and forecasting time series data.

### **Hands-On Activity: Implementing an NLP Model**

Participants implemented a sentiment analysis model using Python, NLTK, and TensorFlow. This session demonstrated text data preprocessing, model training, and performance evaluation.

### **Afternoon Session: Deep Learning and Neural Networks**

Introduction to Deep Learning: Explained deep learning concepts and how they differ from traditional machine learning techniques. Neural Network Architecture: Covered the components of neural networks, including layers, activation functions, and

backpropagation. Convolutional Neural Networks (CNNs): Introduced CNNs and their application in image recognition tasks.

## 7. Closing Remarks and Q&A

Vyankat Jadhav concluded the session by summarizing key takeaways and encouraging participants to continue exploring machine learning. A Q&A session followed, providing an opportunity for attendees to ask questions and seek further clarification on the topics covered.

## 8. Conclusion

The two-day technical session on "Machine Learning with a Practical Approach" successfully met its objectives by blending theoretical knowledge with practical applications. Vyankat Jadhav's expertise and the hands-on activities provided participants with a solid foundation in machine learning, equipping them with the skills necessary for further innovation in the field. The workshop was well-received, with participants gaining valuable insights and practical experience in developing machine learning models.

**Report**  
**On**  
**“One-Month Training on Front End Development”**

**Conducted by:** Wagh Arpita, Software Engineer at Beaming IT Solutions LLP, Pune.

**Date:** 12th January 2023 to 16th February 2023.

**Location:** Seminar hall, Department of Information Technology, M.S. Bidve Engineering College, Latur

---

## **1. Introduction**

From 12th January 2023 to 16th February 2023, the Information Technology Department of M.S. Bidve Engineering College in Latur hosted a comprehensive one-month training program on Front End Development. This training was conducted by Ms. Wagh Arpita, a proficient Software Engineer from Beaming IT Solutions LLP, Pune. The program was meticulously designed to provide students with an in-depth understanding and hands-on experience in essential front end technologies, including Bootstrap, JavaScript, ECMAScript 6 (Advanced JavaScript), and React.js.

## **2. Training Objectives**

The primary objectives of the training were:

- To introduce and reinforce the fundamentals of modern front end development.
- To provide hands-on experience with Bootstrap, JavaScript, ECMAScript 6, and React.js.
- To enable students to build interactive, responsive, and efficient web applications.
- To enhance problem-solving skills and coding proficiency through practical projects.

## 4. Course Structure and Content

The training program was structured over five weeks, each focusing on different technologies and their practical applications.

### Week 1: Introduction to Bootstrap

- **Bootstrap Basics:** Understanding the Bootstrap framework, grid system, and responsive design principles.
- **Components and Utilities:** Utilizing Bootstrap components such as navbars, forms, buttons, and various utilities for styling.
- **Customizing Bootstrap:** Techniques for overriding Bootstrap styles with custom CSS and SASS for unique design requirements.

### Week 2: JavaScript Essentials

- **JavaScript Fundamentals:** Introduction to variables, data types, operators, and control structures.
- **DOM Manipulation:** Techniques for selecting and manipulating HTML elements, and handling events.
- **Advanced JavaScript Concepts:** Exploring functions, objects, arrays, and an introduction to ES6 features.

### Week 3: ECMAScript 6 (Advanced JavaScript)

- **ES6 Syntax and Features:** Introduction to let and const, arrow functions, template literals, and destructuring.
- **Modules and Classes:** Learning about import/export modules, class syntax, and inheritance in ES6.
- **Advanced Topics:** Understanding promises, async/await, and working with APIs for dynamic content.

### Week 4: Introduction to React.js

- **React Basics:** Understanding JSX, components, props, and state management in React.
- **Component Lifecycle:** Exploring the lifecycle methods of React components, including mounting, updating, and unmounting.
- **React Router:** Implementing navigation and routing in React applications to create single-page applications.

## Week 5: Project Work and Finalization

- **Project Planning:** Designing and planning a comprehensive front end project using Bootstrap, JavaScript, and React.js.
- **Implementation:** Building the project with guided support, integrating all the learned technologies.
- **Review and Presentation:** Presenting the final project, receiving feedback, and discussing improvements and learnings.

### Front End Development

#### Course Content (Duration – 60 Days)

##### Bootstrap:

Importance of Framework, Use of Bootstrap, Typography Classes, Margin and Padding Classes and all other classes of Bootstrap.

##### JavaScript:

Features of JavaScript, Functions, Variables, Operators, Data Types, Comments, Promises, Events, Strings, String Methods, Arrays, Array Methods, Conditional Statements, Loops, Best Practices.

##### EcmaScript6 (Advanced JavaScript)

Arrow Functions, Classes, Variables (let, const and var), Ternary Operator, Spread Operator, Rest Parameters, Destructuring, Array Methods (Map Function).

##### React.js

Installation, create new react project, JSX, Components and Props, State and Lifecycle, Lists and Keys, Forms, Rendering Elements, Conditional Rendering, Hooks, API reference, Testing.

##### Note:

- All the points in above course content contain more sub points and all the sub points will be covered during course and practical.
- The course contains everyday tasks, code snippets, interview preparation and website building.
- 20+ projects will be covered during course and one major project will be developed under guidance.

In case of any queries contact @ Arpita Wagh – 8605628251

For WhatsApp contact use same above mobile no.

All rights reserved @Code Scripters

#### 4. Methodology

The training program adopted an interactive and hands-on approach, combining theoretical lessons with practical exercises. Key methodologies included:

- **Interactive Lectures:** In-depth explanations of concepts complemented by real-world examples and discussions.
- **Hands-On Coding Sessions:** Practical coding exercises where students implemented concepts in real-time.
- **Assignments and Quizzes:** Regular assignments and quizzes to reinforce learning and assess understanding.
- **Project Development:** A capstone project that allowed students to apply all learned skills cohesively.
- **Q&A Sessions:** Dedicated sessions for addressing student queries and providing clarifications.

## 7. Outcomes and Achievements

By the end of the training program, students had achieved:

- **Proficiency in Bootstrap:** Ability to create responsive and visually appealing web pages using the Bootstrap framework.
- **Advanced JavaScript Skills:** In-depth understanding of JavaScript, including ES6 features, enabling more efficient and modern coding practices.
- **Competency in React.js:** Skills to build dynamic and interactive web applications using React.js, including state management and routing.
- **Completed Projects:** Successful development and presentation of functional web application projects, showcasing their acquired skills.
- **Enhanced Coding Abilities:** Improved problem-solving, debugging, and overall coding efficiency through practical exercises and project work.

## 7. Feedback and Testimonials

The training was met with positive feedback from participants, who appreciated the comprehensive coverage, practical focus, and the engaging teaching style of Ms. Wagh Arpita. Some testimonials included:

- *"The training provided an excellent foundation in front end development technologies. I feel much more confident in my skills now."*
- *"Ms. Arpita's expertise and approachable teaching style made even complex topics easy to understand."*
- *"The hands-on project was incredibly valuable, allowing me to apply what I learned in a real-world scenario."*

## 7. Conclusion

The one-month training on Front End Development conducted by Ms. Wagh Arpita at the Information Technology Department of M.S. Bidve Engineering College, Latur, was a significant success. It equipped students with essential front end development skills and practical experience, preparing them for future endeavors in the field of web development. The program's structured approach, interactive teaching, and hands-on project work ensured that participants could confidently develop and maintain modern web applications.

## Acknowledgments

We extend our gratitude to Ms. Wagh Arpita for her dedication and expertise, and to Beaming IT Solutions LLP for supporting this training initiative. Special thanks to the administration and staff of M.S. Bidve Engineering College for their cooperation and support in organizing the event.

# पेट्रोलियम संरक्षण अनुसंधान संघाचे एमएस बिडवे अभियांत्रिकी महाविद्यालयात विद्यार्थ्यांना प्रशिक्षण

**लातूर, प्रतिनिधी:** कोणत्याही देशासाठी ऊर्जा महत्त्वाची गरज आहे. देशाचा विकास ऊर्जेच्या नियोजनावर अवलंबून असतो. ऊर्जेचा योग्य पद्धतीने वापर न केल्यास पर्यावरणावर त्याचा परिणाम होतो. म्हणूनच

पर्यावरण आणि ऊर्जा ही दोन अशी क्षेत्रे आहेत जेथे करिअरची मोठी संधी उपलब्ध असल्याचे एनर्जी ऑडिटर केदार खमितकर यांनी सांगितले. 'एनर्जी ऑडिट ही ऊर्जा संवर्धनाची पहिली पायरी आहे...' या

विषयावरती विद्युत अभियांत्रिकी विद्यार्थ्यांना मार्गदर्शन करण्यात आले. एमएस बिडवे अभियांत्रिकी महाविद्यालय आणि पीसीआरए यांच्या संयुक्त विद्यमाने ही कार्यशाळा आयोजित करण्यात आली होती. पेट्रोलियम संरक्षण अनुसंधान संघ हे भारत सरकारच्या पेट्रोलियम आणि नैसर्गिक वायू मंत्रालयाद्वारे संचालित सोसायटी आहे. प्र. प्राचार्य बी.वी. धरणे, विभाग प्रमुख चिन्मय पटनायक, प्राध्यापक अतुल व्यवहारे यांची उपस्थिती होती. विद्यार्थ्यांनी स्वतः होम एनर्जी ऑडिट करावे यासाठी खमीतकर यांनी प्रात्यक्षिक दिले. विद्यार्थ्यांचा चांगला प्रतिसाद मिळाला.

● **Subject : To conduct Institutional Training Programme on Energy Conservation & Management**

R/Sir,

Accept Greetings of Peace...!

PCRA - Petroleum Conservation Research Association, Ministry of P& NG, GOI, has assigned me to conduct Institutional Training Program on Energy Management with special focus on conservation of petroleum products including LPG, Petrol, Diesel etc.

This will be 45 min. workshop PPT presentation screening of some videos.  
We shall cover following topics.

1. Sensitization about the need for conservation & efficient use of energy and resources.
2. Energy Audit case studies.
3. Best practices for driving to save petrol / diesel/ Electrical Energy Conservation.
4. Home Energy Resources Management.

Pl let me know when it would be possible to conduct seminar for Students / staff.

Please note that there is no fee payable by organisation it shall be sponsored by PCRA.

Regards

*Kedar*
