Sub:-For Conducting Civil Field Workshop in Your College

Respected Sir,

I would like to conduct a workshop in your department of Civil . The purpose of this workshop will be to brainstorm on how to enhance practical skills and knowledge in the era of modern technology. In the current world of globalization, students must meet existing standards.

It is therefore important for students to have a deep understanding of methodologies on actual construction site to enhance practical knowledge. This workshop will be very key as it will help in improving the practical knowledge as well as will help to increase confidence of all students in the department.

The workshop will take place on [date of the workshop] and it is an 1hrs/day workshop and charges for entire program of one month will be INR2000 only (per student). And is to bear by the Student itself ,Please find attached a tentative program for the workshop. I would much appreciate an opportunity to meet you for a face to face discussion regarding this.

Thank you for your consideration. Waiting to hear from you.

Sincerely,

Date- 05/03/2019

Workshop entire plan

Following points will be covered in workshop

- 1) How to Read Architecture plan and structure plan (Reinforcement details)
- 2) How to read every sectional plan.
- 3) How to Estimate cost of project.
- 4) Major focus will be on practical knowledge with more than 10 actual construction site visits on weekend days (sat-Sunday) includes RMC plant visit and PT slab visit.
- 5) Workshop will help students to stand out confidently in competition.

Benefits of workshop,

- 1) Students will get deep knowledge of actual practical's on more than 10 actual construction site visits in Latur.
- 2) After successful completion of workshop students will get workshop certificate that will be helpful for increasing their extracurricular part.
- 3) This certification will make our students more valuable and practically stronger than other passed out students in competition for getting good job.

Thank You

Seminar on “Career Guidance for Civil Engineering”

Organized by

**ACES, students' association of Civil engineering department in
association with NBCC India Ltd.**

.

Date: Saturday, Nov 03, 2018

Time: 12:30 PM to 2:30 PM

Venue : Seminar hall, Civil Engineering Dept, M.S. Bidve Engineering College, Latur

Organized by:

ACES, students' association of Civil engineering department in association with NBCC
India Ltd.

Workshop Overview:

The "Career Guidance" Seminar, held on Saturday, Nov 03, 2018, in the Department of Civil Engineering in association with the students' association ACES organized a Seminar titled "Career Guidance for Civil Engineering." distinguished The workshop aimed to provide students with insights into the latest trends and advancements in the technology sector, fostering a deeper understanding of practical applications in their respective fields. A batch of 48 students attended this seminar. Also we look forward to arrange such seminars in future too by inviting speakers from various fields of technology.

Objectives

The primary objectives of Seminar were:

- To introduce students to emerging technologies and industry practices.
- To bridge the gap between academic knowledge and practical implementation.
- To provide networking opportunities with industry professionals.
- To inspire students to pursue innovative projects and research.

Speaker

1. NBCC

Speaker: Arvind Makne

Arvind Makne, a Project Manager (Civil Engineering) working with NBCC, delivered an insightful session on the latest developments in Civil Engineering technologies. His talk covered a wide range of latest topics and advancements in it. The session was highly interactive, with students engaging in a Q&A segment that provided deeper insights into the practical applications of these technologies.

Mr. Arvind Makne

Respected Sir,

We the students of M S Bidve Engineering College , Studying in Third year and final year request you to conduct a seminar on "Career Guidance for Civil Engineering "

We request you to make it convenient on Saturday 03/11/2018 at 12.30pm. We will be obliged if you accept our request.

Thanking You,

Students Head (ACES)

Seminar on “Emerging Trends In Civil Engineering”

Organized by

ACES, students' association of Civil engineering department

Date: Friday, September 7, 2018

Time: 3:30 PM to 5:30 PM

Venue : Seminar hall, Civil Engineering Dept, M.S. Bidve Engineering College, Latur

Organized by:

ACES, students' association of Civil engineering department

Seminar Overview:

This Seminar, held on Friday, September 7, 2018, at 3.30 pm in the Department of Civil Engineering in association with the students' association ACES organized a Seminar titled “Emerging Trends In Civil Engineering”. The Seminar topic aimed to provide students with insights into the latest trends and advancements in the technology sector, fostering a deeper understanding of practical applications on the field. A batch of 42 students attended this seminar. Also we look forward to arrange such seminars in future too by inviting speakers from various fields of technology.

Objectives

The primary objectives of Seminar were:

- To introduce students to emerging technologies and practices on the field of construction.
- To bridge the gap between academic knowledge and practical implementation on the field.
- To provide networking opportunities with industry professionals.
- To inspire students to pursue innovative projects and research.

Speaker

Speaker: Aashish Bodke

Aashish Bodke, working with Paranjape Developers, Pune delivered an insightful session on the latest developments in Civil Engineering technologies. His talk covered a wide range of latest topics and advancements in it. The session was highly interactive, with students engaging in a Q&A segment that provided deeper insights into the practical applications of these technologies. Also he shared his site experience.

Subject : Invitation letter for conducting seminar on 'Emerging Trends in Civil Engineering'

Respected Sir,

We are pleased to inform you that you are cordially invited for conducting seminar on 'Emerging Trends in Civil Engineering' under ACES. (Association of Civil Engg Students) So please make it possible on 07/9/18 at 3:30 pm.

We are requesting you to share the knowledge regarding Emerging Trends in Civil Engineering to our Civil Engg students. You are kindly requested to accept the same.

Thanking you.

Overseas opportunities for
Computer Engineer
and how to prepare -
Mr. Karan Kanekar,
Project Lead, Atos-Syntel,
USA.

WORKSHOP REPORT

One Day Hands on Workshop

On

Overseas opportunities for Computer Engineer and how to prepare

For

BE Computer Engineering Students

Organized by

**Department of Computer Engineering
M.S. Bidve Engineering College Latur**

Academic Year: 2018-2019

Date: 4th April 2019

Faculty Coordinators

**Prof. Dharashive N.G.
Asst. Prof Late R.B.**

Objectives:

1. **Identify Key Overseas Markets:** Highlight the top destinations where computer engineers are in demand and **Understand the Benefits:** Outline the advantages of pursuing a career abroad.
2. **Prepare for Opportunities:** Provide actionable steps to prepare for and secure overseas positions and **Adapt to New Environments:** Offer guidance on adjusting to living and working in a foreign country

Name of Speaker: Mr. Karan Kanekar, Project Lead, Atos-Syntel, USA.

Participants: 46 students of BE Computer Engineering

Summary:

During the Workshop, The participants learned about how to Pursuing a career as a computer engineer abroad can offer significant professional and personal benefits. Thorough preparation, including enhancing your qualifications, building a global network, understanding visa requirements, and being ready to adapt to new cultures, is crucial to successfully securing and thriving in an overseas position.

Topics Covered:

- **Global Demand and Benefits of Working Abroad:**

Top Destinations: The USA, Canada, Germany, the UK, Australia, and Singapore are renowned for their advanced technology sectors. **Growing Markets:** Countries like India, Brazil, and various Southeast Asian nations are developing robust tech industries, presenting new job prospects. **In-Demand Skills:** Expertise in AI, machine learning, cybersecurity, software development, data science, and cloud computing is highly sought after globally.

Career Advancement: Working with cutting-edge technology and diverse teams can enhance career development. **Competitive Salaries:** Many countries offer attractive compensation packages. **Cultural Exposure:** Gaining international experience and networking opportunities.

- **Preparation for Overseas Opportunities and Steps to Secure a Job Abroad**

Educational and Professional Credentials: Obtain internationally recognized degrees and certifications (e.g., PMP, CISSP, AWS Certified Solutions Architect). **Develop proficiency in the local language of your target country.** **Market Research:** Identify countries and cities with high demand for computer engineers.

Resume Optimization: Tailor your CV to highlight skills and experiences relevant to the international job market. **Job Applications:** Use international job boards, company websites, and specialized recruitment agencies. **Interview Preparation:** Familiarize yourself with the interview practices of companies in the target country, including technical assessments.

Dear Sir,

We would like to express our sincere thanks for the efforts which you have taken in conducting the Workshop on "Overseas opportunities for Computer Engineering & how to prepare" on 4th April 2019. It is because of people like you who motivate us to do the excellent in the academics. Thanks for your valuable time that you spend with us.

You are always being a very cooperative with us. We look forward for your similar kind of co-operation and guidance in future. Once again, thanks for your enthusiastic participation with our faculty and students while conducting your interactive session.

Thank you.

Sincerely,

Prof. S.R. Tandle.

One Day Workshop on “TechKnowMeet-2K19”

Organized by

**CSEA and Inspirit, students' association of computer science and
engineering and information technology department in association with
Mindlabz Software Solutions, Pune.**

.

Date: Saturday, March 23, 2019

Time: 9:00 AM to 5:00 PM

Venue : M.S. Bidve Engineering College, Latur

Organized by:

Computer Science and Engineering Association (CSEA) and Inspirit, Students' Association of Computer Science and Engineering and Information Technology Department in association with Mindlabz Software Solutions, Pune, Supported by C# Corner.

Workshop Overview:

The "TechKnowMeet-2K19" workshop, held on 23th March 2019, the Department of Computer Science and Engineering and Information Technology, in association with the students' association CSEA and Inspirit, organized a one-day workshop titled "TechKnowMeet-2K19." The event was held in collaboration with Mindlabz Software Solutions, Pune, and featured a lineup of distinguished speakers from various fields of technology. The workshop aimed to provide students with insights into the latest trends and advancements in the technology sector, fostering a deeper understanding of practical applications in their respective fields.

Objectives

The primary objectives of TechKnowMeet-2K19 were:

- To introduce students to emerging technologies and industry practices.
- To bridge the gap between academic knowledge and practical implementation.
- To provide networking opportunities with industry professionals.
- To inspire students to pursue innovative projects and research.

Speakers and Sessions

1. Microsoft Technologies

Speaker: Vithal Wadje

Vithal Wadje, a prominent figure in the Microsoft community, delivered an insightful session on the latest developments in Microsoft technologies. His talk covered a range of topics including cloud computing with Azure, advancements in .NET framework, and best practices for software development using Microsoft tools. The session was highly interactive, with students engaging in a Q&A segment that provided deeper insights into the practical applications of these technologies.

2. C# Corner and MVP Blogging

Speakers: Gaurav Gahlot, Rupesh Kahane, Mangesh Gaherwar, Jeetendra Gund

This session featured a panel of experts from C# Corner, a popular online community for C# developers, and MVP bloggers. Gaurav Gahlot, Rupesh Kahane, Mangesh Gaherwar, and Jeetendra Gund shared their experiences and knowledge on various aspects of C# programming, best practices in software development, and the importance of community participation. They emphasized the value of blogging and knowledge sharing in professional growth.

3. Java, J2EE, and PHP

Speaker: Sagar Varma

Sagar Varma, an experienced developer and trainer, conducted an extensive session on Java, J2EE, and PHP. His presentation focused on building robust web applications, server-side programming, and integrating various web technologies to create seamless user experiences.

Varma's hands-on approach, combined with real-world examples, provided students with practical knowledge that could be applied directly to their projects and assignments.

4. Operating Systems and Android Development

Speaker: Rushikesh Dhule

Rushikesh Dhule, a specialist in operating systems and Android development, concluded the workshop with an engaging session on the fundamentals of OS design and the intricacies of Android application development. Dhule covered essential topics such as kernel programming, process management, and memory allocation in operating systems, followed by a detailed overview of building Android applications from scratch.

Closing Ceremony:

- Participants shared their experiences.
- Certificates of participation were distributed.

Conclusion

TechKnowMeet-2K19 successfully achieved its objectives of enhancing students' technical knowledge and providing a platform for interaction with industry professionals. The collaboration between CSEA, Inspirit, and Mindlabz Software Solutions, Pune, was instrumental in the event's success. The workshop not only enriched the participants' academic experience but also inspired them to pursue further research and innovation in their respective fields.

The organizers expressed their gratitude to the speakers for their invaluable contributions and to the participants for their enthusiastic involvement. Plans for future workshops and events were discussed, with a focus on continuing to bridge the gap between academia and industry.

Two Day Workshop on “Angular, Artificial Intelligence and Machine Learning”

Organized by

CSEA and Inspirit, students' association of information technology and computer science and engineering department in association with Mindlabz Software Solutions, Pune.

Date: Feb 2-3, 2019

Location: Seminar hall, Department of Information Technology.

Introduction

The Department of Information Technology and Computer science and engineering successfully organized a comprehensive two-day workshop on "Angular, Artificial Intelligence, and Machine Learning" on Feb 2-3, 2019. The workshop aimed to enhance the technical knowledge and skills of participants in these cutting-edge technologies, fostering a deeper understanding of their applications and potential in various domains.

Objectives

1. **To introduce participants to Angular:** A platform for building mobile and desktop web applications.
2. **To provide insights into Artificial Intelligence (AI):** Covering fundamental concepts, tools, and real-world applications.
3. **To delve into Machine Learning (ML):** Explaining algorithms, techniques, and their practical uses.

Day 1: Angular

- **Inauguration Ceremony:** The workshop commenced with an inauguration ceremony, where Prof. Biradar D.V. and Prof. S.R. Tandle, Head of the Departments (IT and CSE), highlighted the importance of staying updated with evolving technologies and encouraged participants to make the most of this learning opportunity.
- **Introduction to Angular:**
 - **Speaker:** Mr. Avnish Jadhav, Mindlabz Software Solutions, Pune
 - **Topics Covered:**
 - Overview of Angular framework
 - Setting up the Angular environment
 - Basics of TypeScript
 - Building components and services
 - Data binding and event handling
- **Advanced Angular Features:**
 - **Topics Covered:**
 - Routing and navigation
 - Forms and validation
 - HTTP client and backend integration
 - State management with NgRx
 - Best practices and performance optimization

Day 2: Artificial Intelligence and Machine Learning

- **Introduction to AI:**
 - **Speaker:** Mr. Avnish Jadhav, Mindlabz Software Solutions, Pune
 - **Topics Covered:**
 - Definition and scope of AI
 - History and evolution of AI
 - Key areas of AI (Natural Language Processing, Computer Vision, Robotics)
 - Ethical considerations in AI
- **Introduction to Machine Learning:**
 - **Topics Covered:**
 - Basics of Machine Learning
 - Supervised vs. unsupervised learning
 - Common algorithms (linear regression, decision trees, neural networks)
 - Evaluation metrics and model validation

- **Hands-on Session on Machine Learning:**

- Participants were introduced to Python libraries such as Scikit-Learn and TensorFlow.
- They worked on practical examples, including data preprocessing, training ML models, and evaluating their performance.

- **Closing Ceremony:**

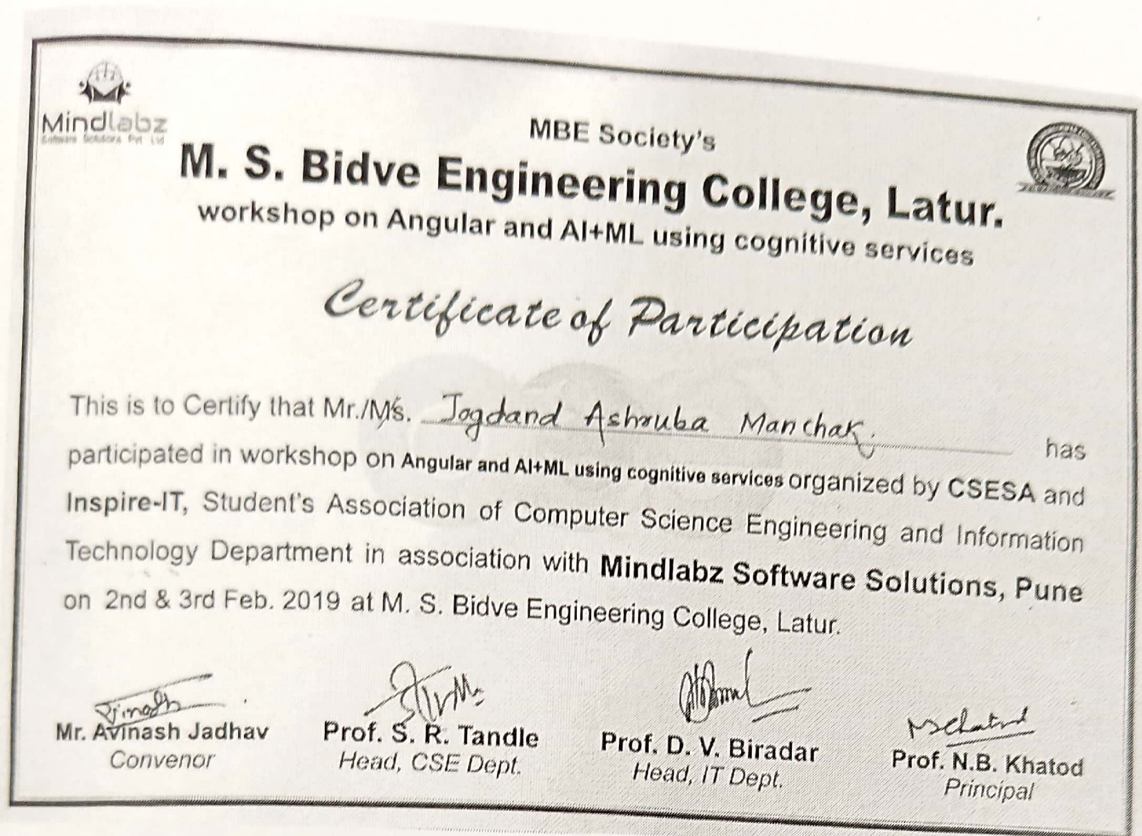

- Participants shared their experiences.
- Certificates of participation were distributed.

Participants Attendances:

Conclusion

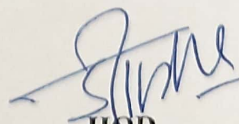

The two-day workshop was a resounding success, providing participants with valuable knowledge and hands-on experience in Angular, Artificial Intelligence, and Machine Learning. The positive feedback from attendees highlighted the workshop's effectiveness in enhancing their technical competencies and inspiring them to explore these domains further.

Acknowledgments

The Department of Information Technology and computer Science and engineering extends its gratitude to the distinguished speakers, organizing committee, volunteers, and participants for their contributions to making this workshop a fruitful and enlightening experience.

Subject: Invitation for a Seminar on "Industrial Application of Solar System"

Dear Sir,

We are pleased to invite you to be a speaker at a seminar organized by the Electrical Engineering Department of M.S. Bidve Engineering College, Latur, on the topic "Industrial Application of Solar System." The seminar will be held on 20th August 2019, and we would be honored if you could spare some time from your busy schedule to participate.

Your valuable expertise and insights into the industrial applications of solar systems would be greatly appreciated by our students and faculty. We are confident that your participation will significantly enhance the quality of the seminar, and we eagerly look forward to your contribution.

Thank you for considering our invitation. We hope for a positive response and look forward to your presence at the event.

Report on Seminar: "Industrial Application of Solar System"

Date of Seminar: 20th August 2019

Venue: Department of Electrical Engineering, MSBECL

Speaker: Mr. Vishwajeet Mane, Synch-Energy, Latur

Total Students Present: 30

Introduction

A seminar on the topic "Industrial Application of Solar System" was organized by the Department of Electrical Engineering on 20th August 2019. The seminar aimed to provide insights into the industrial applications of solar energy systems, focusing on their potential, advantages, and challenges in the industrial sector. The event was graced by Mr. Vishwajeet Mane, a representative from Synch-Energy, Latur, who is an expert in the field of solar energy systems and their industrial applications.

Objectives of the Seminar

- To educate students on the importance of solar energy in the industrial sector.
- To explore the different types of solar systems suitable for industrial applications.
- To highlight the benefits of using solar energy in reducing operational costs and carbon footprints in industries.
- To understand the current trends and future potential of solar energy solutions in industrial settings.

Speaker Profile

Mr. Vishwajeet Mane, an experienced professional in the solar energy industry, is associated with Synch-Energy, Latur. He has worked extensively in the field of solar power generation, focusing on its industrial applications. His expertise covers the design, implementation, and optimization of solar energy systems for various industries, including manufacturing plants and commercial establishments.

Seminar Highlights

The seminar commenced with a warm welcome to the speaker and an introduction to the topic. Mr. Vishwajeet Mane started by giving an overview of the growing importance of renewable energy, especially solar power, in the context of industrial applications. He discussed the following key points during the session:

1. **Overview of Solar Energy**
 - Definition and types of solar energy systems.
 - Global and national trends in solar power adoption.

- The significance of solar energy in reducing dependence on conventional power sources.
- 2. Industrial Applications of Solar Systems**
 - How solar systems can be integrated into industrial operations.
 - Various types of solar energy systems used in industries, such as rooftop solar panels, solar farms, and hybrid solar solutions.
 - Case studies and examples of industries successfully using solar energy to meet their power needs.
- 3. Benefits of Solar Energy for Industries**
 - Reduction in electricity costs: Solar energy can significantly lower the power consumption costs for industrial units.
 - Environmental impact: Solar power is a clean, renewable source of energy that helps industries reduce their carbon footprint.
 - Government incentives and subsidies: The speaker also highlighted the various financial incentives available for industries adopting solar power systems.
- 4. Challenges and Solutions**
 - High initial installation costs and return on investment (ROI).
 - Maintenance and operational challenges.
 - Integration of solar energy with existing energy infrastructure in industries.
 - Possible solutions to overcome these challenges, including financing options, technological advancements, and system optimization.
- 5. Future of Solar Energy in Industrial Applications**
 - Advancements in solar technology, such as improved efficiency of solar panels and energy storage solutions.
 - The role of solar energy in the transition towards sustainable, green industrial practices.

Interaction and Q&A Session

The seminar also included an interactive Q&A session, where students had the opportunity to ask Mr. Vishwajeet Mane about various technical and practical aspects of solar energy in industries. Some of the questions discussed included:

- How can small and medium-sized industries afford to implement solar systems?
- What are the challenges in integrating solar power with traditional grid systems in industries?
- What are the latest innovations in solar technology that are making industrial applications more feasible?

Mr. Vishwajeet Mane provided insightful answers, emphasizing the importance of understanding both technical and financial aspects before adopting solar power solutions.

Conclusion

The seminar concluded with a vote of thanks, acknowledging Mr. Vishwajeet Mane for sharing his valuable knowledge and experience with the students. The session was highly informative

and provided students with a deeper understanding of the growing role of solar energy in industrial applications. It encouraged students to explore further into renewable energy technologies and consider them as viable solutions in the future of industrial operations.

Acknowledgements

We would like to thank Mr. Vishwajeet Mane for his enlightening presentation and for taking the time to engage with the students. We also extend our gratitude to the department faculty for organizing the seminar and to the students for their active participation.

One Day Workshop on "Project Based Guidance "

Organized by

EESA, students' association of Electronics department

Date: 14/09/2019

Location: Classroom 216, Electronics Department.

Number of students: 35

The interaction session was organised by the ESSA students association, whereby electronics alumini Mr. Ravi Vivek Vardhan,(Synchrony Financials, Indus Valley) was invited to guide final year students. Association of students came to know about his visit to college so they requested him to spare his time for valuable guidance. He not only enlighten students with various project options to be done in final year but also gave important hints regarding abroad education.

Objectives

1. **Project knowledge required:** Basic knowledge to be required to do final year projects.
2. **Applications of Electronics:** Various field of applied electronics where students can do projects.
3. **Basics of subjects:** Fundamentals of basic subjects of electronics that must be prepared by the students.

• Summary:

- Students of all classes from 2nd year to final year participated actively and interacted with the Ms Saleena . Also they took some necessary tips and noted it. Even she guided how to and where from to prepare for aptitude test,etc.

Subject: Letter of thanks for expert lecture on "Career guidance".

Respected sir,

I on behalf of our department would like to mention deep sense of appreciation for expert lecture on "Career guidance" on date 13 sept 2019 in our institute. The efforts, guidance and time spent by you for the students are very much admirable. We feel proud on you as a Alumni of our college and career guide to our students. Technical knowledge sharing from your side will be helpful for students to cope with recent techniques.

I express sincere gratitude for your cooperation and expecting the same interaction in future also.

Thanking you.

HOD
EC Dept.
M.S. Bidve Engineering College
Latur

Acknowledgments

Electronics department extends its gratitude to the distinguished speaker, organizing committee, volunteers, and participants for their contributions to making this workshop a fruitful and enlightening experience.

On

“Technical Talk on Node.js, Angular, and Agile Development”

Event: Industry-Academia Innovative Practices

Topic: Node.js, Angular, and Agile Development

Speaker: Mr. Mangesh Gaherwar, Software Developer, Pune

Date: 1st February 2019

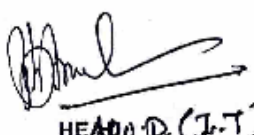

Venue: Information Technology Department, M.S. Bidve Engineering College, Latur

1. Objective: To bridge industry and academia, providing students with insights from an industry expert and esteemed alumnus.

2. Introduction:

The Information Technology Department at M.S. Bidve Engineering College, Latur, organized a technical talk under the "Industry-Academia Innovative Practices" program on 1st February 2019. The session was led by Mr. Mangesh Gaherwar, a valued alumnus of the college and an experienced Software Developer from Pune. The objective of the talk was to bridge the gap between industry and academia, offering students a platform to learn about current industry trends and practical applications in software development.

3. Invitation letter:

Mangesh Gaberwar	
Software Developer, Pune.	
Subject: Invitation for Technical Talk on Node.js, Angular, and Agile Development	
Respected Sir,	
We are thrilled to invite you, a valued alumnus and Software Developer in Pune, to deliver a technical talk on Node.js, Angular, and Agile Development as part of our "Industry-Academia Innovative Practices" program at the Information Technology Department, M.S. Bidve Engineering College, Latur.	
Details:	
<ul style="list-style-type: none">• Date: 1st February 2019• Objective: To bridge industry and academia, offering students valuable insights from an industry expert.	
We look forward to your participation and guidance for our students. Your expertise would be greatly inspiring for them.	
	 HEAD OF (I.T.) Department of Information Tech. M.S.B.E.C. LATUR-413512
Diploma, B.C.A., B.Tech., M.Tech., M.C.A., M.B.A.	

4. Overview of the Talk:

Mr. Gaherwar covered essential topics related to **Node.js, Angular, and Agile Development**—three critical skills in modern software engineering. He introduced Node.js and its significance in server-side programming, explaining how it enables efficient and scalable network applications. Moving to Angular, he discussed its role in developing robust front-end applications, focusing on its MVC architecture, component-based design, and how it streamlines the creation of dynamic user interfaces. Finally, he highlighted Agile Development practices, emphasizing iterative processes, continuous integration, and teamwork as foundational principles for successful software projects.

5. Key Takeaways:

Real-World Applications: Mr. Gaherwar shared practical insights from his projects, illustrating how Node.js and Angular are used in various web applications.

Agile Methodology: The importance of Agile in fostering collaboration and delivering client-centric solutions was a key point, with Mr. Gaherwar discussing best practices for managing iterative development.

Career Guidance: As an alumnus, Mr. Gaherwar provided valuable career advice, encouraging students to stay updated with industry trends and emphasizing the importance of continuous learning in the rapidly evolving tech field.

6. Student Interaction:

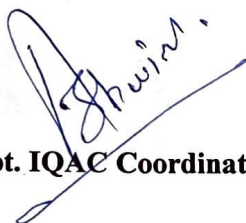

Students actively participated in the Q&A session, seeking clarification on technology frameworks, career paths in web and software development, and the nuances of Agile project management. Mr. Gaherwar's approachability and practical responses enriched the learning experience.

7. Student Attendance:
